

“We shape our buildings and afterwards, our building shape us”

- Winston Churchill

INTRODUCTION

Established in the year 2012, Shree Venkatesh Construction is a partnership firm. Its registered office is at C 409, Chandrani Housing Society, Sinhagad Road, Pune. The firm has been founded by dynamic industry leaders with an illustrious background and an outstanding vision for the future. Coming from an engineering background, all the partners have only one aim – to create something extra-ordinary for all their clients.

“Vision is the art
of seeing what
is invisible to
others”
- Jonathan Swift

VISION & MISSION

At Shree Venkatesh Construction, we believe in efficient implementation of the projects and in delivering only excellence in all that we do. We also give our customers benefit of our experience and help them in saving costs. Our company shows a great deal of passion and dedication towards work, irrespective of the scales of the projects. What sets us apart is our service support to our clients even after the completion of the projects.

OUR EXPERTISE

- Institutional buildings such as colleges, schools, hostels, libraries, staff quarters etc.
- Hospitals - general and super speciality with all necessary amenities.
- Commercial buildings specifically required for I.T. Sectors.
- Residential projects with all necessary amenities.
- Development and landscaping of campuses.
- Interior work for all types of buildings.

“The only source
of knowledge is
experience.”

- Albert Einstein

ABOUT US

Before the humble beginning of Shree Venkatesh Constructions in 2012, the firm was functioning under the brand name of Shree Omkar Constructions from 2006 – 2011. Over the past few years, the firm has flourished tremendously and we have delivered projects with impeccable quality, way before their deadlines and with utmost professionalism.

Our expertise lies in construction of educational buildings, commercial buildings, hospital buildings, construction of roads, residential housing, interior works (commercial as well as residential) etc.

The partnership firm consists of 4 partners, Mr. Nitin Maruti Dagade, Mr. Dhananjay Hari Bhosale, Mr. Sourabh Dnyaneshwar Bhosale and Mr. Rushabh Dnyaneshwar Bhosale.

Mr. Nitin Maruti Dagade – A Civil Engineer (B.E.), Mr. Dagade comes with a massive experience of 25 years in the field.

Mr. Dhananjay Bhosale – With a diploma in Civil Engineering, Mr. Bhosale brings with him an experience of 10+ years.

Mr. Sourabh and Mr. Rushabh – The newest members of the team, these two gentlemen have their background in B.E. Civil with 2 years of experience and a modern outlook towards the industry

OUR SERVICES & SPECIALITY

EDUCATIONAL BUILDINGS

COMMERCIAL BUILDINGS

HOSPITAL BUILDINGS

HOUSING CONSTRUCTION

GENERAL CONTRACTING

RECONSTRUCTION SERVICES

ROAD CONSTRUCTION

INTERIOR WORKS

EDUCATIONAL BUILDINGS

Shree Venkatesh Construction has a rich history of educational building projects. We specialise in design and construction of colleges, schools, auditoriums and recreational facilities. Our many partnerships with higher education institutions and private organisations allow us to create impressive educational facilities. Our solutions are cost effective, low maintenance and boast of quality that will last for decades to come.

COMMERCIAL BUILDINGS

Our commercial building services are tailored for the needs of diverse customers. The reliable quality control and steady dedication of our construction services professional produces immediate and long-term sustainable success in the realisation of our clients' goals and visions. By focusing on each project in particular, we ensure that our commercial construction services meet both – the client's overall requirements and their long-term vision.

HOSPITAL BUILDINGS

The healthcare industry is constantly evolving and has its own set of challenges. With our experience in the construction of healthcare institutions, we help our clients achieve their goals more efficiently. Rather than just focussing on high-rise buildings in the name of constructing hospitals campus, healthcare departments, we go one step ahead and aim towards designing and constructing hospitals that are truly capable of providing utmost care to the patients and improve their lives for the better. Our concepts and designs are ideal for diagnostic centres, hospitals, medical facilities, clinics and medical centres.

HOUSING CONSTRUCTION

We help our clients fit their projects within their set budgets without compromising on the quality and aspirations. We provide personalised construction solutions for the unique needs of every customer, whether building a custom home for your dreams or renovating and enhancing your current abode.

Whatever your housing desires, we're here to assist. From initial confutations to the ultimate rehearse, we work closely with our clients to realise a particular resolution that stands the check of time. Working on unique and challenging projects is our speciality. From incorporating the most recent technologies to providing practical, sustainable solutions we have done it all.

GENERAL CONTRACTING

We provide our clients with personalised general constructing service, bringing together the resources, expertise and leadership needed for the successful delivery of construction project. Our project team has the experience that our clients can blindly rely on and we are proud of the relationships we have developed with our subcontractors and partners. Together, we diligently work to develop the mutual understanding and respect needed to achieve our one common goal - exceeding our expectations of our customers, every time.

RECONSTRUCTION SERVICES

We offer a full range services for reconstruction to help customers rebuild their home or business. Regardless of what the damage is, we can help repair and renew it. All our work is fully guaranteed and our clients vouch for our customer service.

ROAD CONSTRUCTION

Our services in road construction help our clients understand the behaviour of road materials in relation to the expected loads and deterioration mechanisms. We have the expertise to test and assess road material performance and durability along with determination of the maintenance condition of existing roads and subsequent maintenance / reparation plans. We serve customers across this spectrum – government, designers, contractors, suppliers (of raw materials) etc.

INTERIOR WORKS

Interior design is a practice of spatial planning and interior space design in homes and buildings. Shree Venkatesh Construction offers its customers a personal and contentious interior design and execution experience. We will create a customised proposal that outlines the tasks, products to be purchased and a recommended design fee based on the client needs and project scope. With our execution expertise and the talent we have on-board with us, Shree Venkatesh Construction is the perfect choice for interior design for both residential and commercial projects.

EQUIPMENT & MACHINERIES

With the constantly evolving industry, we evolve too. We are highly equipped with all the latest technologies. At Shree Venkatesh Construction, we use the latest techniques and operate all company equipment according to instructions and guidelines as well as safety parameters. We take pride in keeping our equipment at the forefront of industry demands.
